Work Authorization: Eligible to work in Germany (Opportunity Card, §20a AufenthG) | Open to relocation nationwide

PROFILE SUMMARY

Senior project, PMO and procurement professional with **16+ years** of experience across automotive and industrial manufacturing. Combines an engineering foundation in **process design and industrialisation** with **strategic sourcing, supplier development, OEM account leadership**, new-product programme management and portfolio governance. At UnoMinda, **acted as HOD** and held end-to-end responsibility for **64+ automotive electrical-switch and handle-bar projects** for customers including TVS Motor and Ather Energy; more than 90% met their objectives and **15 reached serial production**. At Gabriel India, progressed from sourcing and supplier development into a **customer-facing leadership role**. Most recently at Tech Mahindra, maintained governance and reporting continuity during a corporate carve-out while leading the **Accolade-to-Planisware migration** and the **Honeywell-to-Solstice PMO Process Site migration**.

Governance continuity	64+ | 15	65% → 87%	80% → 15%
Carve-out & PPM migration · Tech Mahindra	Portfolio led | Reached serial production · UnoMinda	Supplier FTR improvement · Gabriel India	EN52 rejection reduction · Rane

CORE COMPETENCIES

- Project, Program & Portfolio Management
- PMO Governance · Reporting · PPM Migration
- NPD · APQP · PPAP · Serial Launch
- PFMEA · Process Validation · Pilot Builds
- Industrialization · Layout · Material Flow · Customer Leadership
- Strategic Sourcing & Supplier Development
- Supplier Feasibility · Cost Negotiation
- DFM/DFA · Capacity & Resource Planning
- VA/VE · ZBC · Value Stream Mapping
- Quality, Cost & Delivery · Planisware · Accolade · SAP · PLM · Power BI

PROFESSIONAL EXPERIENCE

Lead, PMO — Tech Mahindra (Honeywell Account) *May 2023 – July 2026*

- Maintained **PMO governance and reporting continuity** throughout the **Honeywell Advanced Materials carve-out** into Solstice Advanced Materials, coordinating transition priorities across finance, engineering, supply chain and account teams.
- Led the **end-to-end migration** of live project and portfolio data from **Accolade to Planisware**, ensuring data integrity, resolving migration issues, aligning timelines and training users on the new platform.
- **Established and owned the Honeywell PMO Process Site** in Confluence, then led its **end-to-end migration to Solstice** during the carve-out, preserving **data integrity, document quality and standardised governance structures**.
- Owned **planned-expense validation** across live projects against the **Annual Operating Plan**, reconciled variances and prepared dashboards that supported **management decisions** on project funding and prioritization.
- Automated revenue reporting in **Power BI** and worked with finance and project owners to reconcile **revenue, margin and spend** before monthly reviews.
- Coordinated **monthly SKU submissions** with project owners, resolving missing or inconsistent data before the **reporting deadline**.
- Consolidated monthly **NPI and financial reports** for management review, providing a clear view of **portfolio status, expenditure and open actions**.

Deputy Manager, New Product Control (Program Management) — UnoMinda Limited Jan 2022 – Apr 2023

- **Acted as HOD** and led new-product development for **automotive electrical switch products and handle bars** at the Hosur plant, coordinating engineering, quality, manufacturing and supply-chain activities **from nomination through launch**.
- Managed customer programmes for **TVS Motor and Ather Energy**, maintaining direct customer communication and driving internal resolution of **technical, timing and delivery escalations**.
- Chaired **APQP gate reviews** and monitored **PFMEA, process validation, PPAP readiness, pilot builds and production ramp-up** through serial release.

- Held **end-to-end responsibility for 64+ projects**, coordinating **scope, milestones, resources, capacity, cost, quality and delivery** through completion. **More than 90%** met their objectives, **15 reached serial production** and the FY22–23 cycle delivered a **12% margin improvement**.
- **Mentored engineers and project leads** across development, quality and supply chain on **gate preparation**, **structured problem-solving and timely escalation** ahead of APQP reviews.
- Introduced **Zoho Projects** as the standard project-management platform for the Switch division, creating a common structure for **action ownership, milestone control and review follow-up**.

Gabriel India Limited Oct 2016 – Dec 2021

Key Accounts Manager, Business Development — Jan 2020 – Dec 2021

- Progressed from sourcing into a **customer-facing leadership role**, assuming responsibility for **OEM relationships**, **commercial coordination and account revenue performance**.
- Served as the **principal interface for OEM customers**, coordinating product-development status, quality concerns, commercial matters, **daily supply and issue resolution**.
- Aligned engineering, quality, supply chain and suppliers on **customer requirements and corrective actions** to protect **quality, cost and delivery commitments**.
- **Owned project workflow tracking** through **PLM integrated with SAP**, improving visibility of customer requirements, engineering status and supply planning.

Senior Engineer, Sourcing & SCM — Oct 2016 – Jan 2020

- Led supplier discussions on **new-product feasibility and DFM considerations**, ensuring alignment with **technical specifications, programme timing and quality requirements**.
- Handled **supplier feasibility**, **cost negotiation and finalisation**, capacity reviews and onboarding for **domestic and China-based suppliers**.
- Onboarded and developed an aluminium-forging supplier, achieving **90% combined quality and delivery performance** while maintaining competitive cost.
- Raised supplier First Time Right performance from **65% to 87%** and reduced rejection during new-product development to **below 10%**.
- Applied VA/VE and zero-based costing to identify **cost-reduction opportunities**, and used Value Stream Mapping to improve process flow and **raise vendor productivity by 15%**.

Early Career — Engineering, NPD & Process Design Foundations (2010–2016)

- **Senior Engineer, MED Methods — Rane Engine Valve Limited (2014–2016):** Developed production-line layouts and material-flow concepts for large-valve manufacturing; reduced EN52 rejection from **80% to 15%** and increased output to 110 units per shift. Led technical coordination with the equipment supplier for specification review, machine design, installation and commissioning of an induction-hardening system.
- **NPD Engineer — Nash Industries (I) Pvt. Ltd. (2012–2014):** Designed manufacturing processes for sheet-metal components according to the criticality of each part, its manufacturing requirements and applicable quality standards. Managed the transition from development samples through **PFMEA, PPAP, pilot production and process validation** to stable **zero-rejection production**, and represented the development function during **ISO 9001 audits**.
- **Senior Engineer — Digh Vijay Plastics and Allied Products (P) Ltd. (2010–2012):** Managed BOM and ECN control, process planning, product costing and vendor development for new components; supported pilot-production runs, process validation and the presentation of development records during ISO 9001 audits.

EDUCATION

M.Tech in Manufacturing Management — BITS, Pilani | CGPA 6.61 (≈ German Grade 2.0, Gut)

B.E. in Mechanical Engineering — Anna University, Chennai | 68% Aggregate (≈ German Grade 2.0, Gut)

LANGUAGES

English (Fluent) · German (A1, in progress) · Malayalam (Native)

CERTIFICATIONS & PROFESSIONAL DEVELOPMENT

PMP Exam Preparation — 35 Contact Hours of Formal Project Management Education (PMI-aligned)
