Sreejith M S

Senior Project & Program Manager · PMO & Portfolio Governance · Automotive NPD

+49 170 6693662 · sreejithmohanakumaran2k10@gmail.com · linkedin.com/in/sreejithms14041988 · Munich, Germany

Open to senior roles in project delivery, portfolio governance & strategic sourcing

Eligible to work in Germany (Opportunity Card) · Open to relocation

Project and portfolio manager with 16+ years across automotive, industrial manufacturing, and technology. Led NPD governance, resource planning, and delivery for 64+ concurrent projects, including 15 launches into serial production. Managed PMO continuity, financial reporting, and an enterprise PPM migration during a corporate carve-out. Earlier experience includes strategic sourcing, supplier development, OEM account management, and manufacturing-process improvement.

CORE COMPETENCIES

Project, Program & Portfolio Governance — 64+ concurrent projects; APQP/QCDDM gates, prioritization, capacity, and risk decisions.

NPD & Serial-Production Delivery — End-to-end NPD ownership for major OEM accounts; 15 projects launched into serial production.

Change & Business Continuity — Corporate carve-out, PPM migration, knowledge transfer, user adoption, and governance continuity.

Financial Reporting & Controlling — AOP validation, Power BI revenue and margin reporting, and funding-decision support.

Strategic Sourcing & Procurement — Supplier feasibility, costing, capacity, domestic and China sourcing, onboarding, and development.

Supplier & Process Improvement — FTR improved from 65% to 87%; vendor productivity increased 15% through VA/VE, ZBC, and VSM.

Tools: SAP · Power BI · Primavera P6 · Planisware · MS Project · Zoho Projects · Confluence

PROFESSIONAL EXPERIENCE

Lead, PMO — **Tech Mahindra (Honeywell Account)** — *May 2023 - Jul 2026*

- Led PMO continuity through Honeywell Advanced Materials' carve-out into Solstice Advanced Materials, maintaining governance and reporting across live projects.
- Migrated project and portfolio records from Accolade to Planisware with data integrity intact, zero project disruption, and structured user training.
- Built and migrated the Confluence PMO Process Site, standardizing templates, documentation, and process governance.
- Validated planned expense against the AOP and built management dashboards supporting project-funding and prioritization decisions.
- Automated Power BI reporting for revenue, margin, and spend, reconciling YTD results with finance and project owners.

Deputy Manager, New Product Control — **UnoMinda Limited** — *Jan 2022 - Apr 2023*

- Led the Hosur NPD function for TVS Motor and Ather Energy, coordinating dotted-line teams across development, quality, and supply chain.
- Defined APQP gate criteria and project-selection frameworks, chairing evidence-based reviews against QCDDM benchmarks.
- Managed resource allocation, capacity, cost, and delivery across 64+ projects; sustained over 90% success with 15 serial-production launches.
- Delivered a 12% profit-margin improvement in FY22-23 through prioritization, cost control, and structured gate decisions.
- Introduced Zoho Projects and coached project leads, achieving over 85% First Time Right.

Key Accounts Manager, Business Development — **Gabriel India Limited** — *Jan 2020 - Dec 2021*

- Promoted from sourcing execution to OEM relationship and revenue ownership based on supplier-development performance.
- Managed OEM product development, quality oversight, commercial discussions, and PLM/SAP project workflows.

Senior Engineer, Sourcing & SCM — **Gabriel India Limited** — *Oct 2016 - Jan 2020*

- Managed sourcing feasibility, cost, capacity, and vendor onboarding across domestic and China-based suppliers.
- Scaled an aluminium-forging supplier to 90% quality and delivery efficiency; improved FTR from 65% to 87% and vendor productivity 15%.

Early Career — **Engineering, NPD & Process Design Foundations** — *2010 - 2016*

- Rane Engine Valve: reduced EN52 rejection from 80% to 15% and raised output to 110 units/shift by correcting the surrounding thermal profile.
- Nash Industries: designed blanking-process workflows from concept to zero-rejection production.
- Digh Vijay Plastics: managed BOM, ECN, process planning, vendor development, and product costing.

EDUCATION & BEYOND

M.Tech in Manufacturing Management — BITS, Pilani · CGPA 6.61

B.E. in Mechanical Engineering — Anna University, Chennai · 68% Aggregate

Languages: English (Fluent) · German (A1, in progress) · Malayalam (Native)

Certification: PMP Exam Preparation — 35 Contact Hours of Formal Project Management Education (PMI-aligned)
